### **FSPCA PREVENTIVE CONTROLS FOR HUMAN FOOD BLENDED COURSE**

This Food Safety Preventive Controls Alliance (FSPCA) Blended Training course was developed to provide an alternative way for individuals to complete the FSPCA Preventive Controls for Human Food course. The Blended course consists of 2 parts. Part 1 is online and Part 2 is instructor-led. Both parts must be completed in order to obtain the certificate. Any Lead Instructor can provide a one-day Part 2: Instructor-Led course, and you can search for upcoming courses and Lead Instructors on the FSPCA Community website.

#### **IMPORTANT**

Once you begin the process, you have up to six months to complete the Part 1: Online course. Upon completion, you have six months to complete a Part 2: Instructor-Led course. We recommend you have a Part 2: Instructor-Led course identified before enrolling in Part 1: Online.

Before you enroll for Part 1: Online course, please read the background information at this site to help you understand how the course is structured and what options will work best for you. You should plan from 8-12 hours to take the online course but you can start and stop at the end of each module along the way – it does not have to be continuous. There is a 4-hour inactivity time-out so make sure you complete an individual module before closing out or you will have to start at the beginning of that module again. Any completed modules will remain saved.

### THE FSPCA PREVENTIVE CONTROLS FOR HUMAN FOOD BLENDED COURSE

This FSPCA Preventive Controls for Human Food Course was developed by FSPCA—a public-private partnership of university, industry, and government representatives. The course is based on version 1.2 (2016 edition) of the FSPCA Preventive Controls for Human Food course.

January 12, 2017

### TRAINING AND THE PREVENTIVE CONTROLS REGULATION

The Current Good Manufacturing Practice, Hazard Analysis, and Risk-based Preventive Controls for Human Food regulation (referred to as the Preventive Controls for Human Food regulation) is intended to ensure safe manufacturing/processing, packing and holding of food products for human consumption in the United States. The regulation requires that certain activities must be completed by a "preventive controls qualified individual" who has "successfully completed training in the development and application of risk-based preventive controls". This course developed by FSPCA is the "standardized curriculum" recognized by FDA; successfully completing this course is one way to meet the requirements for a "preventive controls qualified individual."

Under the Preventive Controls for Human Food regulation, the responsibilities of a "preventive controls qualified individual" include to perform or oversee 1) preparation of the Food Safety Plan, 2) validation of the preventive controls, 3) records review and 4) reanalysis of the Food Safety Plan.

### **BLENDED COURSE STRUCTURE**

# **Training Sequence:**

This Blended course has two parts. Those who complete the Part 1: Online are eligible to attend a one-day Part 2: Instructor-Led course taught by an FSPCA Lead instructor. You must complete both parts to receive the FSPCA Certificate of Training.

#### **PART 1: ONLINE**

## **Course Content** – Part 1: Online course consists of 16 modules covering:

- 1. Introduction to the FSPCA Human Food Course
- 2. Food Safety Plan Overview
- Good Manufacturing PracticesOther Prerequisite Programs
- 4. Biological Food Safety Hazards
- Chemical, Physical, and Economically Motivated Food Safety Hazards
- 6. Preliminary Steps in Developing a Food Safety Plan
- Resources for Preparing Food Safety Plans
- 8. Hazard Analysis & Preventive Controls Determination
- 9. Process Preventive Controls
- 10. Food Allergen Preventive Controls

- 11. Sanitation Preventive Controls
- 12. Supply-Chain Preventive Controls
- 13. Verification & Validation Procedures
- 14. Record-Keeping Procedures
- 15. Recall Plans
- 16. Regulation Overview

# January 12, 2017

**Enrollment** – Part 1: Online course is \$198. <u>Click here to enroll</u>. Once enrolled, you can begin the course immediately. You will also receive an automated enrollment confirmation email. **You have 6 months to complete the online course, so plan accordingly!** 

Completion – Upon completion of Part 1: Online, you will receive an enrollment ticket and a completion email. Present either the enrollment ticket or completion email to your Part 2 lead instructor. You will not be able to attend Part 2: Instructor-Led without providing evidence of Part 1: Online completion.

**Reminder:** Be sure your email address is accurate and used consistently for both parts of the blended course. You may also need to enable your email system to accept messages from <a href="mailto:noreply@myabsorb.com">noreply@myabsorb.com</a>. Some systems move unknown messages to Spam, Junk or Trash mailboxes or refuse delivery unless you approve or enter the email addresses that you deem acceptable into your address book.

### **PART 2: INSTRUCTOR-LED**

The Part 2: Instructor-Led course is a review of the material from the Part 1: Online course, address questions that you may have related to the material in that course, and complete exercises applying the knowledge that you gained through the course materials.

To receive the Certificate of training from the FSPCA, you must complete Part 1 Online before the Part 2 class.

**Enrollment** – Enrollment for Part 2: Instructor-Led courses is handled by individual Lead Instructors. To find a Part 2: Instructor-Led course, click here.

You will need to present your enrollment ticket or completion email from the Part 1: Online course in order to attend the Part 2: Instructor-Led course.

Please note, you have 6 months from the completion of the Part 1: Online course to attend a Part 2: Instructor-led course, so plan accordingly. After 6 months, your enrollment ticket for Part 2 will be void, thus preventing your admittance to a Part 2: Instructor-Led course. You will have to complete Part 1: Online again in order to receive a new valid enrollment ticket. There are no refunds.

**FSPCA Certificate of Training** – Upon completion of the Blended course, participants will receive the FSPCA "Certificate of Training." This certificate provides evidence that the individual meets the training requirement of the "preventive controls qualified individual."

## **MINIMUM COMPUTER REQUIREMENTS**

**Browser** – Part 1: Online runs on the latest versions of all popular Internet browsers, however for best result we recommend Google Chrome. If you are using a PC, your operating system

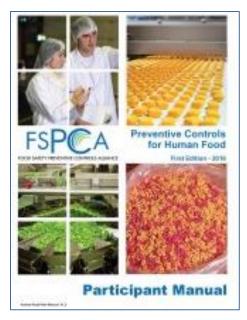

January 12, 2017

should be at least Windows 7. If you are using a Mac, your operating system should be at least OSX 10.10. Mobile devices are not supported at this time.

Additional Software Programs Needed – You will need to have a software program called Adobe Acrobat Reader™ DC on your computer. If you don't have this program, it can be downloaded to your computer for free. To download this program, go to the <u>Adobe website</u>. The free version is all you'll need for this course. Follow the steps to download Acrobat Reader™.

## **TRAINING MANUAL**

It is strongly recommended that you use the Participant Manual while completing Part 1: Online. You can access a <u>free .PDF version</u>. Please be advised that the free .PDF version is 526 pages if you intend to print it yourself. You can order a hard copy for \$30 from the <u>FSPCA</u> Bookstore.
