FEBRUARY 2019

Poultry science department students win awards at the International Production and Processing Expo

Students of the University of Arkansas Department of Poultry Science recently attended the 2019 International Production and Processing Expo held Feb. 12-14 at the Georgia World Congress Center in Atlanta, Georgia. IPPE is hailed as the largest annual trade show for the poultry, meat and feed industries.

Over 65 students combined from our department, the Dale Bumpers College of Agricultural, Food and Life Sciences, Crowder College in Neosho, Missouri, and Eastern Oklahoma State College in Wilburton, Oklahoma made the trip and participated in the College Student Career Program that is held in conjunction with IPPE.

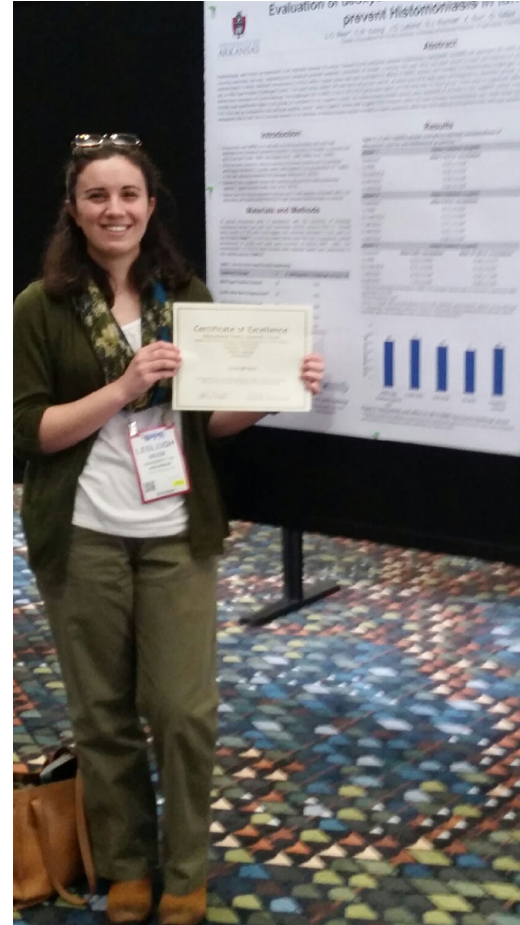

Several University of Arkansas Poultry Science students received prestigious awards during The 2019 International Poultry Scientific Forum, which is also held in conjunction with IPPE, and gave poultry science students an opportunity to present their research.

Two University of Arkansas graduate students won Certificates of Excellence:

- *Poster Presentation: Evaluation of deoxycholic acid as a prophylactic treatment to prevent Histomoniasis in turkeys - **Lesleigh Beer***
- *Oral Presentation: Woody breast incidence in commercial broiler strains at various ages - **Barbara Mallmann***

Barbara Mallmann
Certificate of Excellence - Oral Presentation

Lesleigh Beer
Certificate of Excellence - Poster Presentation

The University of Arkansas Poultry Science Club won third place for Club of the Year and second place in the scrapbook competition. And in the Student of the Year competition, club member Amelia Chapman won third place and Holly Henry won second place. Patrice Sims was this year's IPPE advisor.

New poultry extension specialist has passion for “all things chickens”

Sara Orłowski is ready to serve the needs of Arkansas' poultry industry as assistant professor of poultry for the University of Arkansas System Division of Agriculture.

Orłowski is an extension poultry specialist and researcher, succeeding Susan Watkins, who retired from the post after more than 20 years with the Division of Agriculture.

“We are thrilled to have Sara joining the poultry science faculty,” said Jean-Francois Meullenet, associate vice president for agriculture-research and director of the Arkansas Agricultural Experiment Station. “I look forward to seeing how her research program takes shape as there are tremendous opportunities in the state for research collaborations with our industry.”
